Description :

PDF-b445e | No professional group in the United States benefited more from World War II than the scientific community. After the atomic bombings of Hiroshima and Nagasaki, scientists enjoyed unprecedented public visibility and political influence as a new elite whose expertise now seemed critical to America's future. But as the United States grew committed to Cold War conflict with the Soviet Union and the id... *American Science in an Age of Anxiety: Scientists, Anticommunism, and the Cold War (Ref.Library of the Humanities; 1902)*
